# DataWalk

# Investment summary

After an optimistic beginning of 2024 featuring an acquisition of 4 contracts in 1Q24 alone vs 10 in FY23, the process of gaining new contracts slowed down. In 2Q24 DataWalk signed only 2 significant contracts resulting in a 57% yoy drop of revenues. Since mid-May the Company has not revealed any contract which means that the fourth consecutive month passed without any significant contract signed. The Company's management claims though that lower than assumed revenues do not have to bode ill for the realization of targets for 2024 (+70% yoy dynamic assumed). However, a 4-month period without an acquisition of any significant contract raises our justified concerns whether DataWalk will be able to deliver the revenue targets assumed for 2024.

On the day of a release of the financial statement for 1H24 DataWalk's total value of the sales funnel reached US\$ 59.2 million which implies its recordhigh level and a 37% growth vs the end of 2023. There are two sources of such a vigorous growth: (i) a c. 40% upgrade of the Company's price list and (ii) a strategic change towards acquiring larger projects. However, we cannot see any revenue growth accompanying a growth of the sales funnel value.

In May DataWalk raised PLN 27.5 million from the new shares issue and simultaneously introduced material cost savings (cost drop of c. PLN 12 million yoy in 1H24). The management claims that with the current employment level the Company is able to realize projects worth US\$ 15 million and US\$ 20 million, respectively, in 2024 and 2025 which is materially above our forecasts. Hence, we estimate that the current financing level secured would secure the Company's operations till the end of 2025 assuming the revenues are generated in the amount we forecast.

### **Recent events**

1. 1H24 financial results release: August 28, 2024

2. Conference after preliminary results release: August 13, 2024

3. Inflow of proceeds from the new share issue: May 202

### Upcoming events

1. Release of 3Q24 financial results: November 13, 2024

As 2Q24 revenues were 55% lower than we expected, we cut our revenue forecasts for 2024/2025/2026 by 16%/22%/28%; in our model we assume a 5%/20%/30% growth of revenues in 2024/2025/2026P vs +25%/+30%/+40% expected previously. It is worth noting that the management's declarations indicate a materially higher growth dynamic this year, reaching at least 70%.

Our ultimate 12M EFV goes down to PLN 54 (prev. PLN 69) per share, down 22%, mainly due to lowering of our revenue forecasts for 2024-26. As our 12M EFV is currently close to the Company's share market price, we keep our LT fundamental Hold recommendation intact. Given the secure financing (shares issue) for further operations we upgrade our ST relative rating to Neutral (from Underweight).

# 2Q24 financial results review

On August 28 DataWalk released final 1H24 financial results. 2Q24 financials were close to preliminary figures published earlier; implied 2Q24 revenues reached PLN 4.5 million (down 57% yoy) and proved to be 53% below our expectations. 2Q24 adj EBITDA loss stood at PLN -5.8 million vs PLN -2.8 million expected. The Company's adj operating costs were 20% lower than we assumed.

Ultimately, the released figures turned to be much worse than our tentative expectations. After 1H24 the Company's revenues dropped 19% yoy (down 57% in 2Q24 alone) while the management declares the revenue growths in 2024 at a 70% level; the Company may find this target difficult to be realized.

## Catalysts

- 1. Dynamic growth of the link-based analysis segment
- 2. Expected an Increasing number of contracts signed
- 3. Increasing demand for software for intelligence purposes
- 4. Growth of sales funnel value
- 5. Better sentiment towards growth companies
- 6. Strong USD vs PLN

## **Risk factors**

- 1. Operating problems related to revenues scaling in recent quarters
- 2. Slower than expected revenue growth rate in the upcoming years
- 3. Faster cash burning than expected without the following revenue growth
- 4. Lacking access to funding and loss of liquidity
- 5. Expected long break-even period
- 6. Long sales cycle
- 7. The early stage of the Company's development
- 8. Weak USD vs PLN

#### BASIC DEFINITIONS

A/R turnover (in days) = 365/(sales/average A/R)) Inventory turnover (in days) = 365/(COGS/average inventory)) A/P turnover (in days) = 365/(COGS/average A/P)) Current ratio = ((current assets - ST deferred assets)/current liabilities) Quick ratio = ((current assets - ST deferred assets - inventory)/current liabilities) Interest coverage = (pre-tax profit before extraordinary items + interest payable/interest payable) Gross margin = gross profit on sales/sales EBITDA margin = EBITDA/sales EBIT margin = EBIT/sales Pre-tax margin = pre-tax profit/sales Net margin = net profit/sales ROE = net profit/average equity ROA = (net income + interest payable)/average assets EV = market capitalization + interest bearing debt - cash and equivalents EPS = net profit/ no. of shares outstanding CE = net profit + depreciation Dividend yield (gross) = pre-tax DPS/stock market price Cash sales = accrual sales corrected for the change in A/R Cash operating expenses = accrual operating expenses corrected for the changes in inventories and A/P, depreciation, cash taxes and changes in the deferred taxes

DM BOŚ S.A. generally values the covered non bank companies via two methods: comparative method and DCF method (discounted cash flows). The advantage of the former is the fact that it incorporates the current market assessment of the value of the company's peers. The weakness of the comparative method is the risk that the valuation benchmark may be mispriced. The advantage of the DCF method is its independence from the current market valuation of the comparable companies. The weakness of this method is its high sensitivity to undertaken assumptions, especially those related to the residual value calculation. Please note that we also resort to other valuation techniques (e.g. NAV-, DDM- or SOTP-based), should it prove appropriate in a given case.

#### KEY TO INVESTMENT RANKINGS

This is a guide to expected price performance in absolute terms over the next 12 months:

Buy - fundamentally undervalued (upside to 12M EFV in excess of the cost of equity) + catalysts which should close the valuation gap identified;

Hold - either (i) fairly priced, or (ii) fundamentally undervalued/overvalued but lacks catalysts which could close the valuation gap;

Sell - fundamentally overvalued (12M EFV < current share price + 1-year cost of equity) + catalysts which should close the valuation gap identified.

This is a guide to expected relative price performance: **Overweight** – expected to perform better than the benchmark (WIG) over the next quarter in relative terms **Neutral** – expected to perform in line with the benchmark (WIG) over the next quarter in relative terms

Underweight - expected to perform worse than the benchmark (WIG) over the next quarter in relative terms

The recommendation tracker presents the performance of DM BOŚ S.A.'s recommendations. A recommendation expires on the day it is altered or on the day 12 months after its issuance, whichever comes first. Relative performance compares the rate of return on a given recommended stock in the period of the recommendation's validity (i.e. from the date of issuance to the date of alteration or – in case of maintained recommendations – from the date of issuance to the current date) in a relation to the rate of return on the benchmark in this time period. The WIG index constitutes the benchmark. For recommendations that expire by an alteration or are maintained, the ending values used to calculate their absolute and relative performance are: the stock closing price on the day the recommendation expires/ is maintained and the closing value of the benchmark on that date. For recommendations that expire by an alteration expire via a passage of time, the ending values used to calculate their absolute and relative performance are: the average of the stock closing prices for the day the recommendation expires shores and the average of the benchmark's closing values of the day the recommendation expires and four directly preceding sessions.

#### Banks

Net Interest Margin (NIM) = net interest income/average assets

Non interest income = fees&commissions + result on financial operations (trading gains) + FX gains Interest Spread = (interest income/average interest earning assets)/ (interest cost/average interest bearing liabilities) Cost/Income = (general costs + depreciation)/ (profit on banking activity + other net operating income) ROE = net profit/average equity ROA = net income/average assets Non performing loans (NPL) = loans in 'basket 3' category NPL coverrage ratio = loan loss provisions/NPL

Net provision charge = provisions created - provisions released

DM BOŚ S.A. generally values the covered banks via two methods: comparative method and fundamental target fair P/E and target fair P/BV multiples method. The advantage of the former is the fact that it incorporates the current market assessment of the value of the company's peers. The weakness of the comparative method is the risk that the valuation benchmark may be mispriced. The advantage of the fundamental target fair P/E and target fair P/BV multiples method is is independence of the current market valuation of the comparable companies. The weakness of this method is its high sensitivity to undertaken assumptions, especially those

related to the residual value calculation. Assumptions used in valuation can change, influencing thereby the level of the valuation. Among the most important assumptions are: GDP growth, forecasted level of inflation, changes in interest rates and currency prices, employment level and change in wages, demand on the analysed company products, raw material prices, competition, standing of the main customers and suppliers, legislation changes, etc. Changes in the environment of the analysed company are monitored by analysts involved in the preparation of the recommendation, estimated, incorporated in valuation and published in the recommendation whenever needed.

This report has been prepared by Dom Maklerski Banku Ochrony Środowiska SA registered in Warsaw (hereinafter referred to as DM BOŚ SA) and commissioned by the Warsaw Stock Exchange SA (hereinafter referred to as WSE SA) pursuant to the agreement on the research report preparation between DM BOŚ SA and WSE SA within the framework of the Analytical Coverage Support Program 4.0 described on the WSE SA website: https://www.gpw.pl/gpwpa (hereinafter referred to as the Agreement). DM BOŚ SA will receive a remuneration for the research report in accordance with the Agreement.

The production of the report was completed on September 12, 2024 at 5.35 p.m. The report was distributed on September 12, 2024 at 5.45 p.m.

The report is an investment research within the meaning of Commission Delegated Regulation (EU) 2017/565 of 25 April 2016 supplementing Directive 2014/65/EU of the European Parliament and of the Council as regards organizational requirements and operating conditions for investment firms and defined terms for the purposes of that Directive.

This report constitutes a recommendation within the meaning of Commission Delegated Regulation (EU) 2016/958 of 9 March 2016 supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest. This report is for information purposes only.

This report constitutes neither investment advice nor provides investment service as referred to in Article 76 of the Act on Financial Instruments Trading as of 29 July 2005 (Journal of Laws, 2018, Item 2286 as amended), hereinafter referred to as the Act on Trading; it does not constitute any legal or tax advice, neither does it constitute an indication whether an investment is suitable or appropriate in an individual situation of an investor. In particular this report is not a personal recommendation based on any individual needs or situation of any investor. DM BOŚ SA informs that the investment advice services exclusively consist in the preparation of a personal recommendation based on individual needs and situation of a given client and transferring it to them. To receive this type of a recommendation an agreement on providing investment advice services must be signed with an investments company offering these services.

Neither the information nor the opinions expressed in the report constitute a solicitation or an offer to buy or sell any securities referred herein. The opinions expressed in the report reflect independent, current judgment of DM BOŚ SA.

This report was prepared with due diligence and scrutiny. The information used in the report is based on all public sources such as press and branch publications, company's financial statements, current and periodic reports, as well as meetings and telephone conversations with company's representatives prior to the date of report's release. We believe the above mentioned sources of information to be reliable, however we do not guarantee their accuracy and completeness. All estimates and opinions included herein represent our judgment as of the date of the issue. All opinions, forecasts, calculations and estimates herein constitute the author's subjective assessment as of the date of the issue and can be modified at any time without prior notice. DM BOS SA informs that this report will be updated in the manner as referred to in the Agreement, at least once a year.

DM BOŚ SA is an investment firm within the meaning of the Act on Financial Instruments Trading. The legal entity supervising DM BOŚ SA is Polish Financial Supervision Authority in Warsaw (Komisja Nadzoru Finansowego, KNF in Polish abbreviation). DM BOŚ SA, its management and supervisory bodies and employees do not take any responsibility for decisions taken on the basis of this report and opinions stated herein. Investors bear all responsibility for investment decisions taken on the basis of the contents of this report. The report is intended solely for private use of investors.

Copyrights to this report belong to the WSE. The rules for use of this report have been specified in the Agreement. This report mustn't be redistributed, reproduced or conveyed in any manner or form conflicting with the rules defined in the Agreement.

This report is made available on the day of its issue in the public domain on the website https://bossa.pl/analizy-i-informacje/wsparcie-pokrycia-analitycznego-gpw#datawalk

DM BOŚ SA is entitled to conveying or translation of the report into foreign languages on behalf of their clients and this shall not be sooner than making the report available on its website https://bossa.pl/analizy-i-informacje/wsparcie-pokrycia-analitycznego-gpw#datawalk. DM BOŚ SA follows internal regulations for handling of conflicts of interest which include in particular internal organizational and administration arrangements as well as information barriers established for prevention and avoidance of conflicts of interest related to recommendations. A special organizational arrangement that constitutes an information barrier is so called Chinese walls prohibiting an uncontrolled flow of information among particular organizational units or employees of DM BOŚ SA. Where justified, DM BOŚ SA can create Chinese walls upon the realization of a particular project. Potential conflicts of interests referring to a specific recommendation which is made available to the public or to a wide range of persons are disclosed either in the recommendation or in the document attached. The person(s) preparing this report receive(s) variable compensation indirectly based upon the financial results of DM BOŚ SA which in turn depend – among other factors – on the result on the brokerage activity.

DM BOS SA has not held any long or short position net exceeding 0.5% of the issuer's basic capital in total with respect to the company/companies indicated.

During the last 12 months DM BOS S.A rendered brokerage services on behalf of DataWalk pursuant to the agreement signed and received a remuneration by virtue of this.

Apart from the mentioned above cases, there are neither ties of any kind between DM BOS SA, the analyst/ analysts involved in the preparation of the report and the issuer(s) of securities as referred to in the report nor circumstances that can justifiably be expected to have a negative impact on objectivity of the recommendation with regard to interests or conflicts of interests on their part or on the part of any natural person or legal entity which pertains to the financial instrument or the issuer.

The report was not shown to the analyzed company before the distribution of the report.

The history of all recommendations issued by DM BOS in the last 12 months can be found at the following link: <u>https://bossa.pl/analizy/rekomendacje</u>
