The closing of the transaction is expected to take place by the end of Q4 2024.

On 15 November 2024 the Company entered into a series of share purchase agreements with, inter alia, Peach Property Group AG and LFH Portfolio Acquico S.À R.L., as the sellers, leading to the acquisition of the portfolio of residential assets in Germany (the "Portfolio") currently held by Peach Property Group AG (the "Transaction"). The closing of the Transaction is conditional upon the fulfilment of a number of conditions precedent specified in the Transaction documentation.

The envisaged Transaction assumes that the Company will indirectly acquire:

(i) from Peach Property Group AG 89.9% of the limited liability partnerships: Kaiserslautern I GmbH & Co. KG (or its legal successor) and Kaiserslautern II GmbH & Co. KG (or its legal successor) (the "Portfolio Partnerships"), and

(ii) from LFH Portfolio Acquico S.À R.L., and from ZNL Investment S.À R.L., as a result of a series of transactions, up to 89.9% of the limited liability companies: Portfolio Kaiserslautern III GmbH, Portfolio KL Betzenberg IV GmbH, Portfolio KL Betzenberg V GmbH, Portfolio Kaiserslautern VI GmbH, Portfolio Heidenheim I GmbH, Portfolio Kaiserslautern VII GmbH and Portfolio Helmstedt GmbH (the "Portfolio Companies")

The Participating Notes will be unsecured, subordinated to all other liabilities due to the creditors of GTC and will have a final effective maturity beyond that of all of GTC's debt (i.e. 2044).

Peach Property Group AG will retain a 10.1% stake in the Portfolio Partnerships and the Portfolio Companies, while co-investors, ZNL Investment S.À R.L. and LFH Portfolio Acquico S.À R.L., will retain remaining specified shares. The Company will also be granted an option to purchase additional 10.1% of the Portfolio Companies at an option price determined in accordance with the formula applicable for

the calculation of the consideration amount (as adjusted), provided that no reinvestments will be made. Consequently, the Company will acquire 89.9% of the Portfolio Partnerships and up to 89.9% of the Portfolio Companies.

Transaction costs incurred as of the date of the financial statements are not significant. The total value of costs associated with the acquisition will be disclosed in the annual financial statements as the Transaction has now been signed and further expenses may still arise.

3.1 General factors affecting operating and financial results

GENERAL FACTORS AFFECTING OPERATING AND FINANCIAL RESULTS

Management board believes that the following factors and important market trends have significantly affected the Group's results of operations since the end of the period covered by the latest published audited financial statements, and the Group expects that such factors and trends will continue to have a significant impact on the Group's results from operations in the future.

- impact of foreign exchange rate movements (the vast majority of the Group's lease agreements are concluded in euro and include a clause that provides for the full indexation of the rent linked

to the European Index of Consumer Prices, bonds issued in other currencies than euro were hedged against foreign exchange rate movements using cross currency SWAPs).

Impact of the situation in Ukraine on GTC Group

Detailed analysis of the impact of the war on the operations of the Group has been performed for the purpose of preparation of the annual consolidated financial statements.

Similarly, as at the date of these financial statements, the direct impact of the war in Ukraine on the Group's operations is not material. However, it is not possible to estimate the scale of such impact in the future and due to high volatility, the Company monitors the situation on an ongoing basis and analyses its potential impact both from the perspective of individual projects and the entire Group and its long-term investment plans.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (in millions of EUR)

2. Basis of preparation

The Condensed Consolidated Interim Financial Statements for the three and nine-month periods ended 30 September 2024 have been prepared in accordance with IAS 34 *Interim Financial Reporting* as adopted by EU.

All the financial data is presented in EUR and expressed in millions unless indicated otherwise.

At the date of authorisation of these consolidated financial statements, taking into account the EU's ongoing process of IFRS endorsement and the nature of the Group's activities, there is no significant difference between International Financial Reporting Standards applying to these consolidated financial statements and International Financial Reporting Standards endorsed by the European Union. The new standards which have been issued but are not effective yet in the financial year beginning on 1 January 2024 have been presented in the Group's consolidated financial statements for the year ended 31 December 2023 (note 6).

The Condensed Consolidated Interim Financial Statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's consolidated financial statements and the notes there to for the year ended 31 December 2023, which were authorized for issue on 23 April 2024. The interim financial results are not necessarily indicative of the full year results.

The functional currency of GTC S.A. and most of its subsidiaries is euro, as the Group primarily generates and expends cash in euro: prices (rental income) are denominated in euro and all external borrowings are denominated in euro or hedged to euro through swap instruments.

The functional currency of some of GTC's subsidiaries is other than euro. The financial statements of those companies prepared in their functional currencies are included in the consolidated financial statements by a translation into euro using appropriate exchange rates outlined in IAS 21 *The Effects of Changes in Foreign Exchange Rates*. Assets and liabilities are translated at the period end exchange rate, while income and expenses are translated at average exchange rates for the period if it approximates actual rate. All resulting exchange differences are classified in equity as "Foreign currency translation reserve" without affecting earnings for the period.

As of 30 September 2024, the Group's negative net working capital (defined as current assets less current liabilities) amounted to EUR 9.1. It was mainly a result of presentation of bank loan in Galeria CTWA sp. z o.o. in the amount of EUR 101.8 as current liabilities. Due to the repayment schedule the loan must be repaid until 31 March 2025. The Company's Management Board is taking appropriate actions to secure refinancing and ongoing negotiations are in place. Moreover, there are no other significant obligations which will be in force for at least twelve months from the date of the financial statements and are not presented as current liabilities.

The management has analysed the timing, nature and scale of potential financing needs of particular subsidiaries and believes that there are no risks for paying current financial liabilities and cash on hand, as well as, expected operating cash-flows will be sufficient to fund the Group's anticipated cash requirements for working capital purposes, for at least the next twelve months from the date of the financial statements. Consequently, the consolidated financial statements have been prepared under the assumption that the Group companies will continue as a going concern in the foreseeable future, for at least twelve months from the date of the financial statements.

There were no other than described in the note 15.1 (Ireland notes) changes in significant accounting estimates and management's judgements during period.

3. Significant accounting policies, new standards, interpretations and amendments adopted

The accounting policies adopted in the preparation of the Condensed Consolidated Interim Financial Statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2023 (see note 6 to the consolidated financial statements for 2023) except for changes in the standards which became effective as of 1 January 2024:

- Amendments to IAS 1 *Presentation of Financial Statements: Classification of Liabilities as Current or Non-current* (issued on 23 January 2020 amended 15 July 2020 and 31 October 2023) - not yet endorsed by EU at the date of approval of these financial statements.

Other standards issued but not effective are not expected to impact the Group's financial statements.

The Group's assessment is that the above changes have no material impact on the Condensed Consolidated Interim Financial Statements.

The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective. No changes to comparative data or error corrections were made.

4. Investments in subsidiaries

The Group structure is consistent with presented in the Group's annual consolidated financial statements for the year ended 31 December 2023 (see note 8 to the consolidated financial statements for 2023) except for the following change occurred in the nine-month period ended 30 September 2024:

Regulations regarding VAT, corporate income tax and social security contributions are subject to frequent changes. These frequent changes result in there being little point of reference, inconsistent interpretations and few established precedents that may be followed. The binding regulations also contain uncertainties, resulting in differences in opinion regarding the legal interpretation of tax regulations both between government bodies, and between government bodies and companies. Tax settlements and other areas of activity (e.g. customs or foreign currency related issues) may be subject to inspection by administrative bodies authorised to impose high penalties and fines, and any additional taxation liabilities calculated as a result must be paid together with high interest.

15.1 Notes (Ireland)

On 9 August 2022, a subsidiary of the Company invested via a debt instrument into a joint investment into the innovation park in County Kildare, Ireland (further Kildare Innovation Campus or "KIC"). The idea of the project is to build a database centre with power capacity of 179 MWs. GTC's investment comprised acquiring upfront notes in the value of EUR 115 and in accordance with the investment documentations GTC is obliged to further invest up to agreed amount of ca. EUR 9 to cover the costs indicated in the business plan and comprising such costs as permitting, financing, capex as well as operating costs of the business. As of 30 September 2024 the Company has already additionally invested EUR 4, which were spent in accordance with the business plan as indicated above.

The investment was executed by acquisition of 25% of notes (debt instrument) issued by a Luxembourg securitization vehicle, a financial instrument which gives the right to return at the exit from the project and dependent on the future net available proceeds derived from the project, including a promote mechanism. The maturity date for these notes is 9 August 2032. GTC expects to execute a cash inflow from the project at the maturity date or at an early exit date.

The investment is treated as joint investment due to the following: GTC has indirect economical rights through their notes protected by the GTC's consent to the reserved matters such as material deviation from the business plan, partial or total disposal of material assets [transfer of units] etc. This debt instrument does not meet the SPPI test therefore it is measured at fair value through profit or loss.

Kildare Innovation Campus, located outside of Dublin, extends over 72 ha (of which 34 ha is undeveloped). There are nine buildings that form the campus (around 101,685 sqm): six are lettable buildings with designated

uses including industrial, warehouse, manufacturing and office/lab space. In addition, there are three amenity buildings, comprising a gym, a plant area, a campus canteen, and an energy center. The KIC currently generates around EUR 3.7 gross rental income per annum from the rental of the office and warehouse space and parking spaces on the KIC grounds.

A masterplan was permitted whereby the site and the campus are planned to be converted into a Life Science and Technology campus with a total of approximately 148,000 sq m. The planning permit was issued initially on 7 September 2023 and was finalized on 22 January 2024.

In February 2024 the contract with a major client was signed which is in line with the planning permit.

The next milestones for the project include completion of site highways and infrastructure works as well as power infrastructure works by 26 February 2028 (Phase 1).

As of 30 September 2024 the fair value of the notes were valued by Kroll Advisory (Ireland) Limited (“Kroll”) in accordance with IFRS 13 *Fair Value Measurement* (fair value at level 3). Kroll estimated the range of fair value of the notes between EUR 120 and EUR 140. Taking into account no significant difference between the valuation and book value, no update to the balance as of 30 September 2024 in regards to the Ireland investment amount was presented. The project value used in the valuation of the instrument was established by Kroll Advisory (Ireland) Limited as of 30 September 2024, in accordance with the appropriate sections of the Valuation Technical and Performance Standards (“VPS”) contained within the RICS Valuation – Global Standards 2022 (the “Red Book”). Key unobservable inputs used in the valuation are cost per MW, rent per KW/month and yield. Impact of changes by 2.5% or 5% in these inputs will not be higher than corresponding changes in GDV presented below.

Management concluded that the current book value of the notes represents their fair value, what is within the range estimated by Kroll. For the purpose of last valuation Management decided to amend the assumption regarding the expected exit date due to the current market conditions, but it does not affect Company’s sales strategy. The change in that assessment combined with significant value drivers (mainly discount rate) resulted in Kildare’s valuation remaining the same as in the previous period.

The following table presents significant unobservable inputs used in the fair value measurement of the notes:

Significant unobservable inputs	Input
Estimated discount rate	33.72%
Gross Development Value (GDV)	4,300 EUR

Information regarding inter-relationship between key unobservable inputs and fair value measurements is presented below:

	Total Fair Value of financial instrument	
	Increase	Decrease
Change in estimated discount rate by 5%	113.3	126.1
Change in estimated discount rate by 10%	107.6	133.5

19. Subsequent events

On 23 October 2024, GTC Group signed a sale and purchase agreement concerning the sale of Glamp d.o.o., an owner of A-class office building in Belgrade – GTC X for EUR 52.2. Net proceeds from sale of subsidiary shall be EUR 24.2. Difference between the sale price and net proceeds is mainly due to the fact that part of the price will be used for bank loan repayment before the sale. The closing of the transaction is expected to take place by the end of Q4 2024.

On 15 November 2024 the Company entered into a series of share purchase agreements with, inter alia, Peach Property Group AG and LFH Portfolio Acquico S.À R.L., as the sellers, leading to the acquisition of the portfolio of residential assets in Germany (the “Portfolio”) currently held by Peach Property Group AG (the “Transaction”). The closing of the Transaction is conditional upon the fulfilment of a number of conditions precedent specified in the Transaction documentation.

The envisaged Transaction assumes that the Company will indirectly acquire:

(i) from Peach Property Group AG 89.9% of the limited liability partnerships: Kaiserslautern I GmbH & Co. KG (or its legal successor) and Kaiserslautern II GmbH & Co. KG (or its legal successor) (the “Portfolio Partnerships”), and

(ii) from LFH Portfolio Acquico S.À R.L., and from ZNL Investment S.À R.L., as a result of a series of transactions, up to 89.9% of the limited liability companies: Portfolio Kaiserslautern III GmbH, Portfolio KL Betzenberg IV GmbH, Portfolio KL Betzenberg V GmbH, Portfolio Kaiserslautern VI GmbH, Portfolio Heidenheim I GmbH, Portfolio Kaiserslautern VII GmbH and Portfolio Helmstedt GmbH (the “Portfolio Companies”)

As the first tranche, the Company, indirectly through its subsidiary, GTC Paula S.À R.L., will acquire 89.9% of the shares in the Portfolio Partnerships and 79.8% of the shares in the Portfolio Companies for a total consideration comprising EUR 167 in cash and the Participating Notes with a total nominal value of approximately EUR 42, subject to adjustments. Participating notes are planned to be issued by the Company under the Polish Act on Bonds. The Participating Notes will be offered or transferred to LFH Portfolio Acquico S.À R.L. The Participating Notes will be unsecured, subordinated to all other liabilities due to the creditors of GTC and will have a final effective maturity beyond that of all of GTC's debt (i.e. 2044).

Peach Property Group AG will retain a 10.1% stake in the Portfolio Partnerships and the Portfolio Companies, while co-investors, ZNL Investment S.À R.L. and LFH Portfolio Acquico S.À R.L., will retain remaining specified shares. The Company will also be granted an option to purchase additional 10.1% of the Portfolio Companies at an option price determined in accordance with the formula applicable for the calculation of the consideration amount (as adjusted), provided that no reinvestments will be made. Consequently, the Company will acquire 89.9% of the Portfolio Partnerships and up to 89.9% of the Portfolio Companies.

Transaction costs incurred as of the date of the financial statements are not significant. The total value of costs associated with the acquisition will be disclosed in the annual financial statements as the Transaction has now been signed and further expenses may still arise.

The accounting treatment for the Transaction is being finalized, therefore the preliminary assessment if this is an asset acquisition or a business combination cannot be disclosed in this condensed financial statements.
