Recommended action

We keep both, our LT Buy recommendation and ST market-relative Neutral bias for the Company's shares, intact. Our 12M EFV rises by 5% to PLN 159.4 from PLN 152.0 per share. We expect some improvement of the recurrent operating figures in 1Q25 vs 1Q24, mainly due to higher pricing of diagnostic tests than a year before and rising volumes with higher sales at Alteris (within the Group).

1Q25 financial results preview

In 4Q24 the Group performed altogether c. 109,000 diagnostic tests (up 2% yoy) including c. 32,000 CT scans (down 5% yoy), c. 69,000 MRI scans (up 5% yoy), c. 4,400 PET scans (flat yoy), and c. 4,200 SPECT scans (up 14% yoy). Net sales revenues from diagnostic services reached PLN 92 million (up 10% yoy). In 1Q25 we assume c. 60,000 MRI scans (up 8% yoy), 29,000 CT scans (down 3% yoy), 5,000 PET scans (flat yoy) and c. 4,000 SPECT scans (down 4% yoy). We expect Rezonans Powiśle with Scanix/ Exira to have performed c.15,000 (up 1% yoy)/ 140 procedures. A number of procedures might have reached c. 114,000 (up 3% yoy) in the discussed quarter.

- Release of 3Q25 consolidated results: November 27

Voxel's 1Q25 non-consolidated revenues should reach PLN 92 million (up 10% yoy) supported by a growth of an average price triggered by a change of a sales mix. We forecast quarterly revenues at RP/ Scanix/ Exira/ Alteris at PLN 3/ 8/ 4/ 45 million vs

PLN 3/ 8/ 4/ 18 million in 1Q24. A sales growth in Alteris should result from the inward investments (offered for lease) - we assume additional PLN 30 million, apart from PLN 15 million from sales to external entities (in 1Q24 external sales stood at PLN 13 million). We forecast the Group's consolidated revenues at PLN 149 million (up 37% yoy) and EBIT at PLN 31 million (up 20% and 5% yoy on the reported and adjusted level, respectively). We assume all surplus services should be settled by NFZ and expect the settlement at PLN 2 million (the similar amount as in 1Q24). We expect Alteris to deliver higher EBIT (at PLN 2.4 million) vs PLN 0.5 million a year before due to higher sales (vital investments in the Group). Wages costs should be higher yoy. Voxel informed that an increase in radiologists' remuneration should raise costs by PLN 1 million a month this year.

We expect higher net financial costs in 1Q25 than a year before. We forecast the Group's NI at PLN 23 million (up 21% and +1% yoy on the reported and adjusted level, respectively).

Financial expectations

In 2025 the Group expects a double-digit yoy growth of diagnostic tests volumes and higher revenues. Organic growth should be possible thanks to (i) launched recently laboratories that have not reached the break-even point, (ii) replacement of the equipment in 2022-24 and increase in a number

of devices in the existing laboratories, and (iii) investments realized in 2025. The Group believes that given the current technical capacity of the medical equipment and its replacement planned for this year they would be able to increase a volume of diagnostic tests by c. 90% in the upcoming years. Besides, a diversification of revenue sources has been continued. On the cost side, the Group expects a PLN 1 million growth of monthly costs in 2025 due to an increase in radiologists' remuneration.

Alteris's backlog for 2025 stands at PLN 120 million including PLN 30 million from a sale of projects in the Group; last year's backlog stood at PLN 85 million with final revenues reaching PLN 123 million. Alteris assumes a sales growth. Radpoint's backlog is estimated at PLN 12 million.

We slightly modify our financial assumptions for the Group.

Valuation

Our 12M EFV for Voxel (constituting a 50%-50% mix of the DCF FCFF method and peer-relative valuation) rises 5% to PLN 159.4 (previously PLN 152.0) per share, mainly on the back of a lower RFR (from 5.9% to 5.2%) in the forecast period coupled with financial forecast changes. The DCF/peer-relative valuation renders PLN 161 (prev. PLN 154) per share/ PLN 158 (prev. PLN 151) per share.

Risk factors

1. Lower public spending on health care (high exposure to NFZ)
2. Medical services pricing increase too low
3. Change in the State's policy regarding private medical contractors
4. Changes in the Company's contracts with NFZ
5. Changes in legislation regarding the funding of hospitals/ treatments
6. Falling affluence of the society
7. New innovative methods of cancer diagnostics/ treatment
8. Medical errors – reputation risk
9. Low and deteriorating availability of radiologists
10. Loss/low labor supply
11. Salary pressure (in particular of medical and IT staff)
12. Overblown investments
13. Lagging behind the technological progress in diagnostics

Catalysts

1. Aging society
2. A number of diagnostic imaging scans in Poland below the standards in developed countries
3. Medical services pricing increase
4. Development of the market of private medical services
5. Improvement of the treatment mix (towards more advanced)
6. New medical services offered
7. Development of the segment of pharmaceutical research (clinical trials)
8. Organic growth, new centers (high barriers to entry)
9. Acquisitions – economies of scale
10. Consolidation of the sector; potential acquisition target
11. AI development and new algorithms for test descriptions
12. IT software development for cloud diagnostics
13. Strategic option review

BASIC DEFINITIONS

A/R turnover (in days) = $365 / (\text{sales}/\text{average A/R})$
Inventory turnover (in days) = $365 / (\text{COGS}/\text{average inventory})$
A/P turnover (in days) = $365 / (\text{COGS}/\text{average A/P})$
Current ratio = $(\text{current assets} - \text{ST deferred assets})/\text{current liabilities}$
Quick ratio = $(\text{current assets} - \text{ST deferred assets} - \text{inventory})/\text{current liabilities}$
Interest coverage = $(\text{pre-tax profit before extraordinary items} + \text{interest payable})/\text{interest payable}$
Gross margin = gross profit on sales/sales
EBITDA margin = EBITDA/sales
EBIT margin = EBIT/sales
Pre-tax margin = pre-tax profit/sales
Net margin = net profit/sales
ROE = net profit/average equity
ROA = (net income + interest payable)/average assets
EV = market capitalization + interest bearing debt – cash and equivalents
EPS = net profit/ no. of shares outstanding
CE = net profit + depreciation
Dividend yield (gross) = pre-tax DPS/stock market price
Cash sales = accrual sales corrected for the change in A/R
Cash operating expenses = accrual operating expenses corrected for the changes in inventories and A/P, depreciation, cash taxes and changes in the deferred taxes

DM BOŚ S.A. generally values the covered non bank companies via two methods: comparative method and DCF method (discounted cash flows). The advantage of the former is the fact that it incorporates the current market assessment of the value of the company's peers. The weakness of the comparative method is the risk that the valuation benchmark may be mispriced. The advantage of the DCF method is its independence from the current market valuation of the comparable companies. The weakness of this method is its high sensitivity to undertaken assumptions, especially those related to the residual value calculation. Please note that we also resort to other valuation techniques (e.g. NAV-, DDM- or SOTP-based), should it prove appropriate in a given case.

KEY TO INVESTMENT RANKINGS

This is a guide to expected price performance in absolute terms over the next 12 months:

Buy – fundamentally undervalued (upside to 12M EFV in excess of the cost of equity) + catalysts which should close the valuation gap identified;
Hold – either (i) fairly priced, or (ii) fundamentally undervalued/overvalued but lacks catalysts which could close the valuation gap;
Sell – fundamentally overvalued (12M EFV < current share price + 1-year cost of equity) + catalysts which should close the valuation gap identified.

This is a guide to expected relative price performance:

Overweight – expected to perform better than the benchmark (WIG) over the next quarter in relative terms
Neutral – expected to perform in line with the benchmark (WIG) over the next quarter in relative terms
Underweight – expected to perform worse than the benchmark (WIG) over the next quarter in relative terms

The recommendation tracker presents the performance of DM BOŚ S.A.'s recommendations. A recommendation expires on the day it is altered or on the day 12 months after its issuance, whichever comes first. Relative performance compares the rate of return on a given recommended stock in the period of the recommendation's validity (i.e. from the date of issuance to the date of alteration or – in case of maintained recommendations – from the date of issuance to the current date) in a relation to the rate of return on the benchmark in this time period. The WIG index constitutes the benchmark. For recommendations that expire by an alteration or are maintained, the ending values used to calculate their absolute and relative performance are: the stock closing price on the day the recommendation expires/ is maintained and the closing value of the benchmark on that date. For recommendations that expire via a passage of time, the ending values used to calculate their absolute and relative performance are: the average of the stock closing prices for the day the recommendation elapses and four directly preceding sessions and the average of the benchmark's closing values for the day the recommendation expires and four directly preceding sessions.

Banks

Net Interest Margin (NIM) = net interest income/average assets
Non interest income = fees&commissions + result on financial operations (trading gains) + FX gains
Interest Spread = (interest income/average interest earning assets)/(interest cost/average interest bearing liabilities)
Cost/Income = (general costs + depreciation)/(profit on banking activity + other net operating income)
ROE = net profit/average equity
ROA = net income/average assets
Non performing loans (NPL) = loans in 'basket 3' category
NPL coverage ratio = loan loss provisions/NPL
Net provision charge = provisions created – provisions released

DM BOŚ S.A. generally values the covered banks via two methods: comparative method and fundamental target fair P/E and target fair P/BV multiples method. The advantage of the former is the fact that it incorporates the current market assessment of the value of the company's peers. The weakness of the comparative method is the risk that the valuation benchmark may be mispriced. The advantage of the fundamental target fair P/E and target fair P/BV multiples method is its independence of the current market valuation of the comparable companies. The weakness of this method is its high sensitivity to undertaken assumptions, especially those related to the residual value calculation. Assumptions used in valuation can change, influencing thereby the level of the valuation. Among the most important assumptions are: GDP growth, forecasted level of inflation, changes in interest rates and currency prices, employment level and change in wages, demand on the analysed company products, raw material prices, competition standing of the main customers and suppliers, legislation changes, etc. Changes in the environment of the analysed company are monitored by analysts involved in the preparation of the recommendation, estimated, incorporated in valuation and published in the recommendation whenever needed.

This report has been prepared by Dom Maklerski Banku Ochrony Środowiska SA registered in Warsaw (hereinafter referred to as DM BOŚ SA) and commissioned by the Warsaw Stock Exchange SA (hereinafter referred to as WSE SA) pursuant to the agreement on the research report preparation between DM BOŚ SA and WSE SA within the framework of the Analytical Coverage Support Program. 4.0 described on the WSE SA website: <https://www.gpw.pl/gpwpa> (hereinafter referred to as the Agreement). DM BOŚ SA will receive a remuneration for the research report in accordance with the Agreement.

The production of the report was completed on May 2, 2025 at 6.20 p.m.
The report was distributed on May 2, 2025 at 6.30 p.m.

The report is an investment research within the meaning of Commission Delegated Regulation (EU) 2017/565 of 25 April 2016 supplementing Directive 2014/65/EU of the European Parliament and of the Council as regards organizational requirements and operating conditions for investment firms and defined terms for the purposes of that Directive.

This report constitutes a recommendation within the meaning of Commission Delegated Regulation (EU) 2016/958 of 9 March 2016 supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest. This report is for information purposes only.

This report constitutes neither investment advice nor provides investment service as referred to in Article 76 of the Act on Financial Instruments Trading as of 29 July 2005 (Journal of Laws, 2018, Item 2286 as amended), hereinafter referred to as the Act on Trading; it does not constitute any legal or tax advice, neither does it constitute an indication whether an investment is suitable or appropriate in an individual situation of an investor. In particular this report is not a personal recommendation based on any individual needs or situation of any investor. DM BOŚ SA informs that the investment advice services exclusively consist in the preparation of a personal recommendation based on individual needs and situation of a given client and transferring it to them. To receive this type of a recommendation an agreement on providing investment advice services must be signed with an investments company offering these services.

Neither the information nor the opinions expressed in the report constitute a solicitation or an offer to buy or sell any securities referred herein. The opinions expressed in the report reflect independent, current judgment of DM BOŚ SA.

This report was prepared with due diligence and scrutiny. The information used in the report is based on all public sources such as press and branch publications, company's financial statements, current and periodic reports, as well as meetings and telephone conversations with company's representatives prior to the date of report's release. We believe the above mentioned sources of information to be reliable, however we do not guarantee their accuracy and completeness. All estimates and opinions included herein represent our judgment as of the date of the issue. All opinions, forecasts, calculations and estimates herein constitute the author's subjective assessment as of the date of the issue and can be modified at any time without prior notice. DM BOŚ SA informs that this report will be updated in the manner as referred to in the Agreement, at least once a year.

DM BOŚ SA is an investment firm within the meaning of the Act on Financial Instruments Trading. The legal entity supervising DM BOŚ SA is Polish Financial Supervision Authority in Warsaw (Komisja Nadzoru Finansowego, KNF in Polish abbreviation).

DM BOŚ SA, its management and supervisory bodies and employees do not take any responsibility for decisions taken on the basis of this report and opinions stated herein. Investors bear all responsibility for investment decisions taken on the basis of the contents of this report. The report is intended solely for private use of investors.

Copyrights to this report belong to the WSE. The rules for use of this report have been specified in the Agreement. This report mustn't be redistributed, reproduced or conveyed in any manner or form conflicting with the rules defined in the Agreement.

This report is made available on the day of its issue in the public domain on the website <https://bossa.pl/analizy-i-informacje/wsparcie-pokrycia-analitycznego-gpw#voxel>

DM BOŚ SA is entitled to conveying or translation of the report into foreign languages on behalf of their clients and this shall not be sooner than making the report available on its website <https://bossa.pl/analizy-i-informacje/wsparcie-pokrycia-analitycznego-gpw#voxel>.

DM BOŚ SA follows internal regulations for handling of conflicts of interest which include in particular internal organizational and administration arrangements as well as information barriers established for prevention and avoidance of conflicts of interest related to recommendations. A special organizational arrangement that constitutes an information barrier is so called Chinese walls prohibiting an uncontrolled flow of information among particular organizational units or employees of DM BOŚ SA. Where justified, DM BOŚ SA can create Chinese walls upon the realization of a particular project. Potential conflicts of interests referring to a specific recommendation which is made available to the public or to a wide range of persons are disclosed either in the recommendation or in the document attached.

The person(s) preparing this report receive(s) variable compensation indirectly based upon the financial results of DM BOŚ SA which in turn depend – among other factors – on the result on the brokerage activity.

DM BOŚ SA has not held any long or short position net exceeding 0.5% of the issuer's basic capital in total with respect to the company/companies indicated.

Apart from the mentioned above cases, there are neither ties of any kind between DM BOŚ SA, the analyst/ analysts involved in the preparation of the report and the issuer(s) of securities as referred to in the report nor circumstances that can justifiably be expected to have a negative impact on objectivity of the recommendation with regard to interests or conflicts of interests on their part or on the part of any natural person or legal entity which pertains to the financial instrument or the issuer.

The report was not shown to the analyzed company before the distribution of the report.

The history of all recommendations issued by DM BOŚ in the last 12 months can be found at the following link: <https://bossa.pl/analizy/rekomendacje>
